

ARTERIAL DRAINAGE (IRELAND).

RETURN to an Order of the Honourable The House of Commons,
dated 19 March 1852 *infra*,

I.

RETURNS "of all the Works which have been commenced in *Ireland* under the Acts for ARTERIAL DRAINAGE, together with the Date in each Case of the original Application from the Party or Parties interested: also, where an Estimate was prepared of the Cost of the Preliminary Survey, the Date when that Estimate was furnished to the Parties interested: also, where the Amount required for the Preliminary Survey and Estimate was subscribed, the Date when the Amount was received by the Board of Works: also, the Date of the Completion of the Survey and detailed Estimate in each Case; and the Date when the full Assents were received; and also the Date when the Works were actually commenced; in each case where the Work has actually been finished, and the Award made, the Amount of the original Estimate, and the Amount actually expended; but where unfinished, the Amount of the original Estimate, and the Amount actually expended to the present Date; and also a full Estimate of the Amount which will still be required for the Completion of the Work: "

II.

"Of all the Cases, if any, in which there has been a Departure from the original Plan submitted to the Parties interested, and approved of by them, and in which the Assent of the Parties interested to the new Plan was not obtained previous to its being put into execution: also, all cases, if any, where a larger Area has been included in the Operations than was originally comprised in the Survey and Estimate assented to by the Parties interested; distinguishing the Cases, if any, in which a larger Outlay has been made than otherwise would have been consistent with the Act of Parliament: "

III.

"And, of the Names and Salaries of all the Engineers, Overseers, and Clerks at present employed in the Arterial Drainage Works, specifying the Staff in detail on each Work."

(Acts 5 & 6 Vict., c. 89; 8 & 9 Vict., c. 69; 9 Vict., c. 4; and 10 & 11 Vict., c. 70.)

used by the provisions of the Act of Parliament. See 9 Viet. c. 4, s. 47, of provision they have been, with a full explanation of such case, furnished in 41 districts, as herein set forth.

No. II.

- (1).—RETURN of all the CASES, if any, in which there has been a DEPARTURE from the original PLAN submitted to the PARTIES interested and approved of by them, and in which the ASSENT of the PARTIES interested to the new Plan was not obtained previous to its being put into execution.

THE total number of districts in which works have been commenced are 121.

Of these 18 have been brought under the operation of the ordinary proceedings of the Drainage Acts, and plans were published and lodged for public inspection before completing the preliminary proceedings; the remaining 103 districts were undertaken under the provisions for summary proceedings, 9 Vict. c. 4, ss. 43, 46, 47, 48, 49, and 50, for the improvement of lands, and affording remunerative employment to the labouring classes during the distress consequent on the failure of the potato crop. Under these provisions no plan was required to be lodged for inspection or submitted to the parties interested, nevertheless, in 43 cases, diagrams, or sketch plans were published with the original Report, but in the remaining 60 cases no plan was lodged or published.

In nearly all cases there have been during the progress of the works some deviations, alterations, additions, and abridgements of the originally conceived plan, and especially as regards increased depths in the channels, which deviations the Commissioners are specially empowered by the Act of Parliament to make, and which would consequently bring nearly the whole 121 districts into this Return. In the 18 districts under ordinary proceedings no assent from the proprietors is required by Act of Parliament, or could be legally called for, used, or relied upon, but that given in the first instance, nor has there been in these cases any general change of project or "new plan" beyond increasing the depth of the channels proved to be necessary for the discharge of the floods, as described in the 17th, 18th, and 19th Annual Reports of the Board of Works to Parliament. In one of these cases (Barriskane) a majority of the proprietors memorialized that the capacity of the channels should be so increased.

As regards the 103 districts under the provisions for summary proceedings, assents are required by 9 Vict. c. 4, s. 50, to be furnished before the works can be completed, if the cost of the works exceeds an amount calculated at the average rate of 3*l.* per acre of the land to be drained. These assents have been called for in all cases where it was deemed necessary under the provisions of the Act, and have either been obtained or the final award has been made for the districts without a further expenditure on works, or the works of the district now remain suspended for want of such second assents.

- (2).—ALL CASES, if any, where a larger AREA has been included in the OPERATIONS than was originally comprised in the SURVEY and ESTIMATE assented to by the PARTIES interested.

The cases where the area has been revised pursuant to the provisions of the Act are set forth in the accompanying Return, No. 1.

- (3).—DISTINGUISHING the CASES, if any, in which a larger OUTLAY has been made than otherwise would have been consistent with the Act of Parliament.
